**BUTTERKWIK**  
**Churn Dasher and Mixer**  
The Butterkwik Churn Dasher and Mixer is positively the fastest and finest butter producing dasher ever invented. Unsurpassed for whipping cream. It's all in the design of the dasher, which is manufactured entirely of Maple-Wood. No metal parts to oil or keep clean—Lubricated by cream itself. Its operation is the original and correct action, which is up and down, and its new and improved, patented dasher, produces butter in less than three minutes.

No. 1—Two-qt. size-----\$1.25  
No. 2—Four-qt. size-----1.75

## BETTER SEEDS AT PRICES YOU PAY FOR ORDINARY SEEDS

TODAY gardeners and planters are offered the best opportunities for making larger profits than have prevailed during the last several years. To realize the greatest benefit under these more favorable conditions it is very important that you use special care in the selection of your seeds.

For over a quarter of a century we have devoted our efforts to distributing the best seeds obtainable.

Our prices are low because we sell for cash, eliminating losses on bad accounts bookkeeping, etc. This saving is passed on to our customers in the way of better prices. Why waste your time and money planting ordinary seeds when you can buy our High Grade Tested Seeds at prices you pay elsewhere for just seeds.

To all of our customers I want to express my personal appreciation for their continued and liberal patronage.

We strive to supply our customers and friends with the highest quality garden, flower and field seeds so that we may be deserving of their continued business. To those who have never planted our seeds won't you try them this year?

Most sincerely,

J. S. MOERS
